US MAYORS CLIMATE PROTECTION AGREEMENT

PETITION

Cities, towns, and villages that have signed the U.S. Mayors Climate Protection Agreement want a vibrant economy and a healthy environment with a minimal contribution to climate change. Communities that have been most successful in this endeavor have discovered that climate change is a whole-community problem and they need to get the entire community motivated and involved.

Therefore the undersigned commend Orrville's Mayor David Handwerk for signing the U.S. Mayors Climate Protection Agreement and we urge all mayors in Wayne County to do the same. We further urge that Green Teams including members of the community, local government officials, and experts from academic institutions in the area be formed to assist the mayors in implementing the recommendations of the U.S. Mayors Climate Protection Agreement. Information on your community: www.wcsen.org/LocalActivity.
