

“GET YOUR GREEN ON!”

Join Wayne College’s newest club:

Advisors: Adil Wadia and Carol Pleuss

**Discover, Learn, Explore, Act,
Conserve, Sustain and Give!**

Join us as we partner with the city of Orrville’s Green Team and the Wayne County Sustainable Energy Network to reduce our impact on the Earth’s fragile environment. This will be a great opportunity for anyone interested in protecting our environment, reducing our carbon footprint, halting global warming, recycling, working to lower waste and consumption, developing sustainable energy initiatives and just connecting with other eco-minded students. Help us plan for earth day, 2009 and collaborate with other environmentally-minded businesses, industries, schools, colleges and universities, local and state government offices and social service agencies to co-sponsor events, field trips and environmental projects.

So... “Get your GREEN on” and join Wayne College’s GLOBAL GREEN CLUB!
